Outcomes & Results

The proof is in the numbers. Real people with real results.

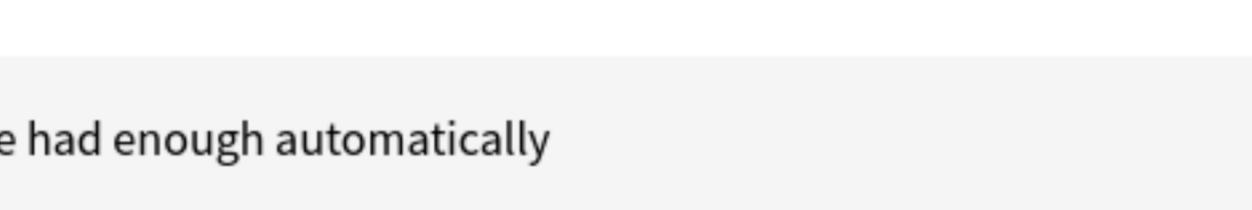

Break the bad habits that have failed you before

Stop cravings, impulsive eating, and obsessive thinking by disrupting the negative thoughts that are fueling your unhealthy habits.

"I have lost 44 pounds in 5 months. Food is the last thing on my mind. I'm able to stay away from junk and eat much smaller portion sizes."

-Heather S., Google Play

Enhance your willpower and motivation

Spark your desire to exercise and to eat healthy by listening to messages that boost your energy, self-control, and determination.

"I'm a believer! Lost 5 lbs in 10 days. I know it has reprogrammed my subconscious. Before, I would know I shouldn't have a second helping or another beer, but my subconscious would overrule. Now those two functions of my brain are working together."

-Catdoodlz, Amazon review

Use Cases

Use Hypnosis For

Results You Can Expect

Overeating

Be satisfied with sensible portions

Cravings

Be attracted to healthier foods

Binge Eating

Stop eating when you've had enough automatically

Emotional Eating

No more using food to soothe difficult emotions

Mindless Eating

Eat only when you're hungry and savor each bite

Testimonials

Hear how hypnosis is changing people's lives.

"Down 12 pounds!"

"Wow. I don't know how this stuff works, but I am shedding weight faster than I have before even on stricter diets. I listen to it every day or every two. It really helps me get results! Kinda magical if you ask me."

-Tolaguy

"I've changed my diet for good."

"I have always been a person that's struggled to eat healthy. I was a burger, pizza, wings girl. I didn't like vegetables, either. As I'm getting older, my metabolism is slowing down so I knew I had to improve my diet. I always failed at dieting due to my very strong cravings. I have started listening to this every day for the last 2 weeks and I've changed my diet for the good. I can say no to bad food and it's not even a struggle. It's really easy for me to stay on a healthy diet. I've given myself one cheat day and even on that cheat day, I'm mindful of what I'm eating."

-Tessa107

"I haven't caved in two weeks!"

"I work out a lot, but it's frustrating that nothing happens because I'm still eating unhealthy, no matter what I do, the call of unhealthy delicious food is just too powerful! So I listened to this audio to help me curb my cravings for yummy but fatty food, and within days of using it, my cravings for burgers, shakes, pizza and fries are more manageable and I haven't caved in two weeks now! Amazing!"

-Bella73885

"I've lost 13 lbs with zero effort psychologically."

"This is awesome! It was integral in getting me into the mindset of eating healthier. I've given up sugar, dairy and grains three months ago. I also started listening to exercise hypnosis to spark my motivation to exercise more days/week. I've lost 13 lbs with zero effort psychologically. I don't ever feel like I will slip back to old ways but if I do I know I can come back to this for a boost."

-Janemh

Break bad habits, shift your mindset, and change your lifestyle in 30 days or less.

Millions of people have used our hypnosis audios to make lasting changes in their lives. In fact, some people notice changes after their first session. To get the best results, we recommend listening to the Lose Weight hypnosis audio for 30 days, just 22 minutes per day. If after 30 days you don't feel more in control of your own thoughts and behaviors, you'll get your money back.

Why Hypnosis

The problem isn't your body, it's your mind.

You've tried everything to lose weight. But once your willpower wears off, your bad habits, negative thoughts, and lack of motivation are back. While it's easy to blame your body, there's actually another culprit that's responsible: your subconscious mind.

The weight loss secret no one is talking about...

Your subconscious mind controls 90% of your thoughts and behaviors.

This includes the thoughts that drive you to overeat, binge, obsess over food, and any other habits that affect your ability to lose weight. But here's the thing most people don't know: you can permanently change those negative thoughts and behaviors with one simple tool — hypnosis.

How it Works

How hypnosis helps you become someone who doesn't struggle with making healthy choices, like eating well and exercising.

We all know someone who makes living healthy look effortless.

In the past, you may have envied this person, wishing his or her desire for healthy food and exercise came naturally to you, too. But no matter how sincerely you've wanted to be like him or her, something inside you has always held you back. That "something" is your subconscious mind, and hypnosis can help you reprogram it.

1 Relax

Hypnosis works by relaxing your conscious mind. When your conscious mind is relaxed, your subconscious is more receptive to suggestion. A suggestion is a new belief like "I feel in control" or "I love how exercise makes me feel" that can become installed in your subconscious mind during a hypnotic state.

2 Gain Control

Since hypnosis bypasses the analytical, conscious mind, your subconscious automatically accepts the suggestion as true, and begins acting based on that new belief. This means you don't just feel "in control." You are in control. And you don't just think about exercising. You can't wait to work out.

3 Become Empowered

Once your subconscious has been reprogrammed, nothing can stand in your way. You'll no longer have to "become" someone who loves healthy food and exercise. You will be that person, inside and out.

"I've lost half my desired weight in 3 weeks without effort"

"I always prided myself in not allowing hypnosis to have "control" over me. I was naive. This really helped to reprogram my own harmful beliefs about myself. I find myself proud of the new healthy me I've become. I have lost half of my desired weight loss in 3 weeks without effort. After months of exercising regularly with a trainer and being faithful to the Jenny Craig diet, I lost nothing. I left Jenny Craig, continued with my trainer, and began hypnosis. Boom. Success."

-Laaa1983

Congratulations!

You successfully upgraded to Lose Weight Pro

Your order isn't quite finished yet.

There's an incredible, special bonus I'd like to offer you at the end of this video (for serious customers only)...

The astonishing truth I learned from people just like you...

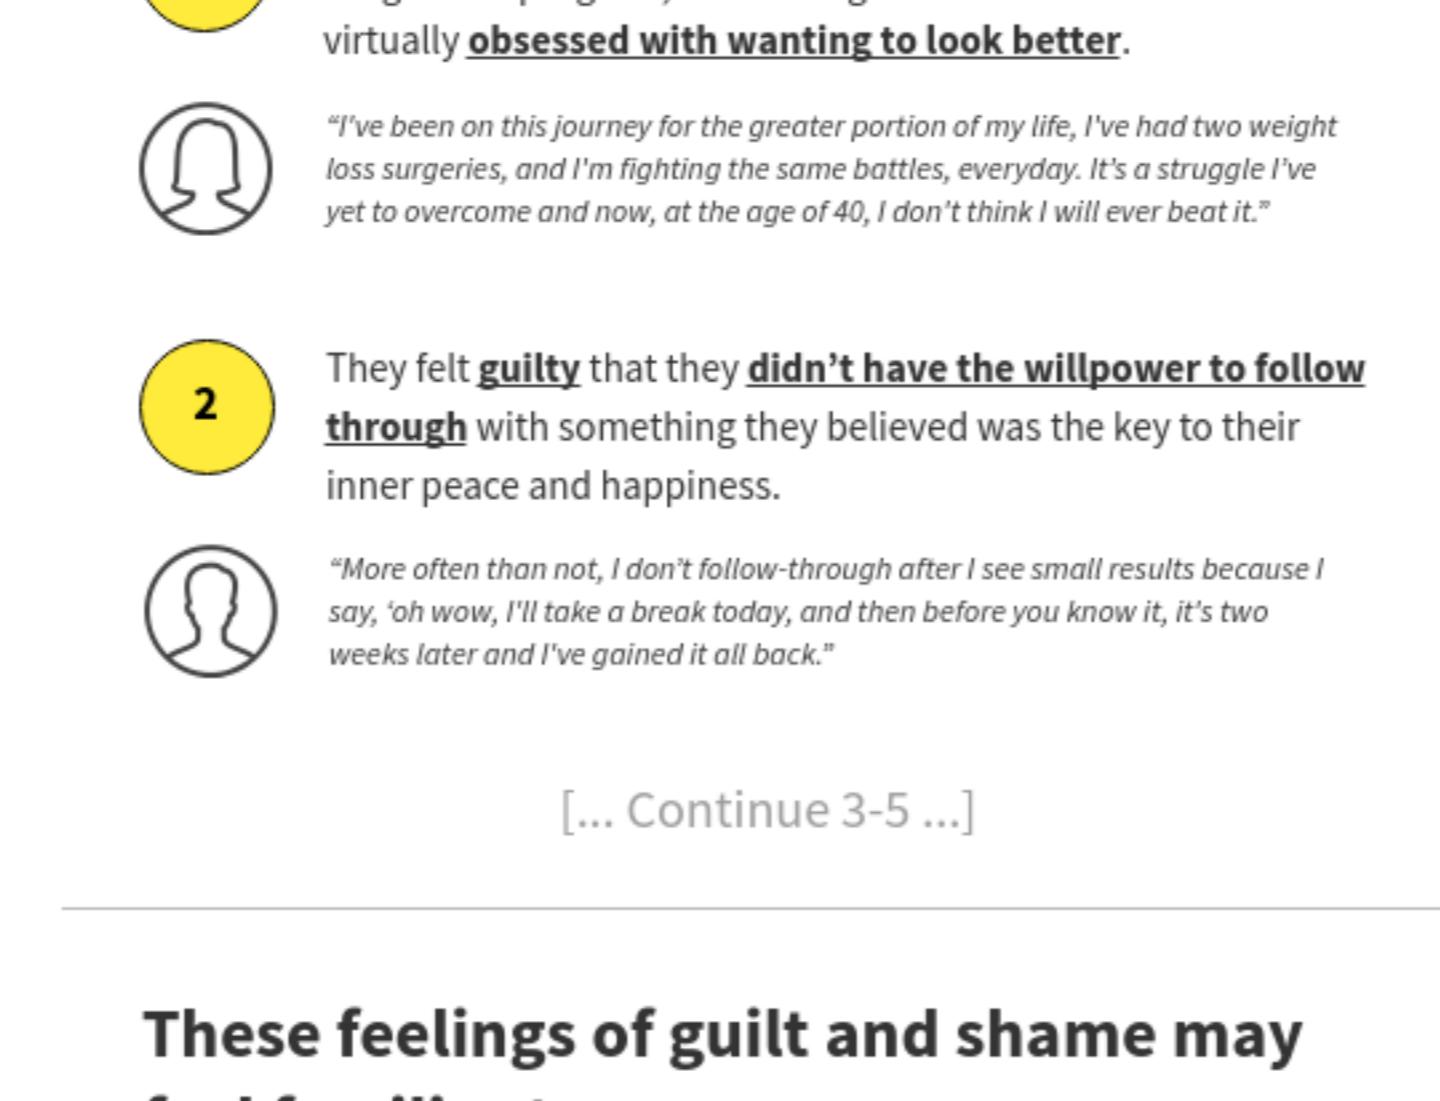

I recently surveyed thousands of my customers who've been listening to the Lose Weight audio and what I found was truly astonishing.

I found the TRUTH behind what motivates them to lose weight...

And you guessed it, it had to do with their subconscious beliefs.

But it wasn't just that, I found that almost...

EVERYONE WHO WANTS TO LOSE WEIGHT, HAS THE SAME LIMITING BELIEFS

The 5 MOST COMMON limiting beliefs among people who want to lose weight...

1

They were **deeply frustrated** with their inability to stick with a weight loss program, even though their conscious minds were virtually **obsessed with wanting to look better**.

2

"I've been on this journey for the greater portion of my life, I've had two weight loss surgeries, and I'm fighting the same battles, everyday. It's a struggle I've yet to overcome and now, at the age of 40, I don't think I will ever beat it."

3

They felt **guilty** that they **didn't have the willpower to follow through** with something they believed was the key to their inner peace and happiness.

4

"More often than not, I don't follow-through after I see small results because I say, 'oh wow, I'll take a break today, and then before you know it, it's two weeks later and I've gained it all back."

[... Continue 3-5 ...]

These feelings of guilt and shame may feel familiar to you.

You, too, may feel guilty when you don't follow-through on a diet or workout plan.

You, too, may feel ashamed of your body and what feels like your inability to "stick with it" and find success.

And like my other customers, you, too, may also be **subconsciously using guilt and shame to motivate yourself**.

If you've ever thought something like ...

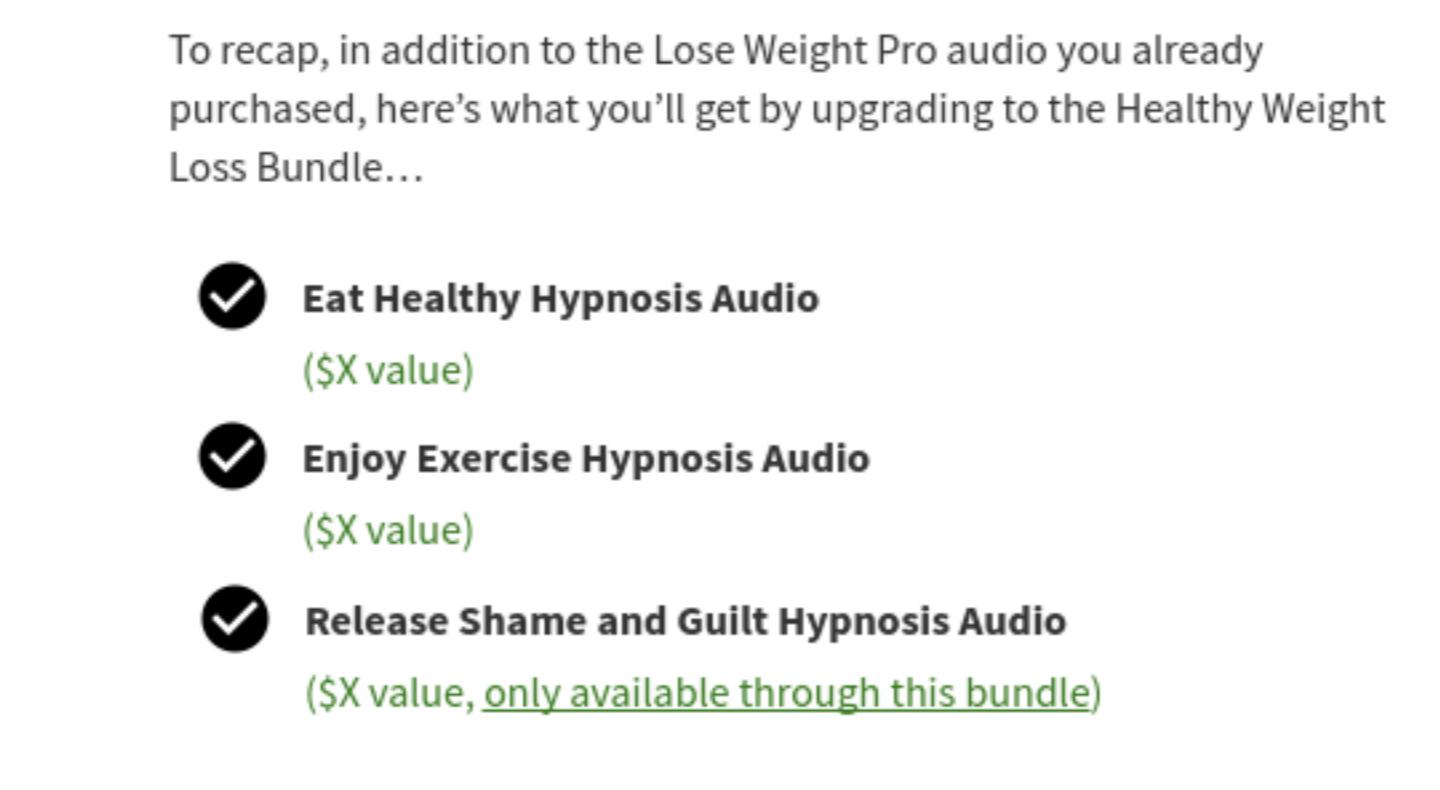

"If I could just feel guilty and ashamed enough, I would have the motivation to change"

... it's likely that guilt and shame are a big part of your subconscious beliefs.

But here's the thing...

This kind of thinking NEVER works, and more often than not, you revert back to unhealthy habits.

And when this happens, you fall into what I call the "Downward Guilt Spiral"...

The guilt spiral you can't seem to escape...

First, you try to maintain a healthy lifestyle, hoping that willpower, guilt, and shame will keep you on track.

But eventually, your subconscious fights back against your restrictive diet or extreme exercise plan, causing you to slip up and, you guessed it... only makes you feel **more guilt** and **more shame**!

That's why even with the best intentions, people will fail if they don't get rid of those **hidden subconscious beliefs around guilt and shame**.

Luckily, there is a solution to this. But first, let me ask you a question...

[... Continue content ...]

Lorem ipsum is a placeholder text (filler text) in publishing and graphic design. It is used to demonstrate the graphics elements of a document, such as font, typography, and layout.

The lorem ipsum text is usually a section of a Latin text by Cicero with words altered, added and removed to make it nonsensical.^[1] Lorem ipsum text is used in mock-ups of visual design projects before the actual words are put into the finished product. This is often called greking. The text is derived from Cicero's De finibus bonorum et malorum (On the Ends of Goods and Evils, sometimes the title is translated as [About] The Purposes of Good and Evil).

The text was frequently used in desktop publishing templates. To experiment with the text, it can be copy-pasted into the desktop publishing software, and the typeface and its setting can be tried out. The distribution of letters in Lorem Ipsum is close to that in English language. This way, you can see what your own text would look like in that graphic format.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Nunc maximus, Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum

Courses / Lifting with a trainer and how they help identify Joint Attention

Single Course

Child Initiated Interaction, Social Referencing and Joint Attention

Course Description

One of the first things all children learn to do is initiate interaction and socially reference people. Typically developing children frequently socially reference or check in with adults in the room. They do this for a number of reasons, a sense of security, gathering information about what is and isn't okay, securing someone's attention and more. You've already learned about initiating in the social loop lesson, one way people maintain connection is by socially referencing and making eye contact, it's also one of the primary ways in which children will initiate or re-initiate interaction. It's through initiating interaction and using social referencing that Joint Attention is born, this is where development really starts to take off! This course takes a look at how to use play to increase child initiated interaction, spontaneous social referencing and eye contact.
